

To Support Your Business, we have these additional suggestions:

- We have many contacts with specialties...for instance, financing. Chat with us.
- The City of Troy offers incredible support starting with their "Economic Development Coordinator", Jean Myers. You can even call her directly to set up conversations, at 618.667.1040.
- The local Chamber of Commerce offers awesome support. They've enjoyed the leadership of one of the best you'll ever see in the person of Dawn Mushill....start with 618.667.8769, or their website linked here.
- We have several designers and contractors available for interviewing.
- For businesses that qualify, we have an investor package that could include:
 - Design and site planning.
 - Ownership and Leaseback (and so accomplishing the "Financing").
 - Even an option back to you for ownership.

Obviously, we would need to talk about that.

- We have a builder-contractor at this very moment, interested in doing an office on one of the larger sites for multiple tenancy, and he would especially court the human services field. We've already established that speciality as one of our most attractive themes, and with Walgreens so close, it would appear a great match.
