

Infinity Classic Homes builds homes in the Greater Houston vicinity. Management started Infinity to be "simply better" than other new homebuilding companies. What do we mean by that, simply better? We build high quality homes, priced from the \$200's to the \$500's. Each home is ENERGY STAR Certified, regardless of the sales price. We use Acme bricks, tech shield decking, paneled doors, rounded corners, high ceilings, lots of arches, fireplaces, covered patios, and more. We are not focused on "volume" of homes like so many national builders, and even the bigger local companies. We build quality homes. We deliver good service. We offer a fair price, and we do it in a local area, where we can truly connect with people. We want to be a part of the lives of people, to truly connect, with people in all aspects of our world including employees, vendors, tradespeople, customers and their families. It is all about people. With over 45 years combined management experience, we listen to our customers, and deliver a home that is "simply better" than our competition. At Infinity Classic Homes you will understand what it means to have a quality home that endures the test of time. Our goal is "customers for life" and the difference that we offer will lead to us achieving that goal, one customer at a time.
